

## THE STEWARDSHIP PAPERS

*Stewardship is "keeping the faith," even in the midst of day-to-day experiences. Nowhere have I seen this more clearly illustrated than in the following observations of a child. She states her perception of reality quite simply, without any delineations...and perhaps that's why "of such is the Kingdom of heaven."*

### Summer

Last June I went to the swimming pool. It is like the beach, except you don't have sand and it's not salt water. The pool also has a tennis court. And sometimes we played baseball. At the end of vacation the pool closed.

My Grampa liked golf. He and I went on a journey. I hoped he liked it. I did. He was fun, but he died this year in February. I had to spend the night at Joel's house.

This June I think things will be different. The beach and the pool haven't changed, but Grampa is up in Heaven.
