

And That's Why

We tend to notice:
One flat wheel on a 4-wheeled car;
Something big;
Something we want;
Things that change;
Something bad that happens.

We don't tend to notice:
The 3 wheels that work;
The little things;
The things we've had for a while;
The things that don't change;
The good things.

Then Jesus came along and he pointed out:
The things we rarely notice;
The little things;
That which we've had with us for a while.
The eternal things;
The good things.

On Good Friday, God (the Father) took Him (the Son) away, so we would notice
Someone the mighty wanted to ignore;
Someone they didn't want to become big and powerful;
Someone who had been with us for a while;
Something eternal;
Someone very, very good.

And that is why it is called "Good Friday".
